Experience

Senior Front-End Web Developer

[Trellix](#) (Formerly McAfee Enterprise) | Dallas, TX | [November 2021](#) – Current

- Migrated / redesigned 1000+ web pages website as Trellix Separated from McAfee.
- Built, maintained, and documented trellix.com's CSS & JavaScript such as interactive animations, form-handling, data visualization, rich media, etc.
- Established and maintained user-tracking data.
- Integrated & managed data collection & UX analysis (MS Clarity, Adobe launch, Google Analytics, search console).
- Developed feature content such as the quarterly [Threat Report](#).

Front-End Web Developer / UI-UX Developer

[PartnerComm, Inc](#) | Dallas, TX | [Oct 2020](#) – November 2021 (1 year, better offer)

- Worked as a designer and developer to create [bespoke websites](#) using Figma, React, and Vue.
- Created [in-house apps](#) to track time and generate invoices.
- Maintained multiple, unique interface design systems based on client branding, but with their own look and feel. Kept them up-to-date and conformed them to dynamic and evolving client & web standards.
- Created mockups & prototypes to provide a near wholistic demonstration of the vision.

User Experience Designer

[Service Autopilot](#) | Richardson, TX | [Mar 2019](#) – Oct 2020 (1.75 years, COVID-19 layoff)

- Developed interfaces & experiences for enterprise management apps whose features included [mobile job tracking](#), [client service](#), asset tracking ([mobile](#), [desktop](#)), and marketing automation.
- Worked with product owners to address industry problems with UX solutions.
- Designed unique & intuitive interfaces which threaded the needle of accessibility for very diverse users and advanced control capability.

Presentation Designer

[The Focal Point](#) (now IMS since 2020) | Dallas, TX | [Aug 2017](#) – Mar 2019 (1.5 years, better offer)

- Helped lawyers make their cases to judges & juries with beautiful, informative graphics & animations to supplement their arguments.
- Produced content under immense pressure and time constraints in an on-site war room working directly with the lawyers and their clients.
- Presented live material in trials, hearings, and mock trials (hot seat).
- Developed workflow processes & programmed [internal automation tools](#) to make tasks more efficient.

Frontend Web Developer

[Naked Lime](#) (Reynold & Reynolds) | College Station, TX | [Sep 2016](#) – Aug 2017 (1 year, moved to Dallas)

- Designed and maintained dozens of websites for clients using web design languages (HTML, CSS, jQuery, etc.), proprietary tools, and Adobe CC.
- I developed methods of adding to our proprietary tools to bring eye-catching, unique, and functional websites to our clients.
- Developed proprietary & internal tools by assisting in development of design & feature improvements.

Graphic Designer

[Tarleton State University](#) | Stephenville, TX | [Sep 2014](#) – Sep 2016 (2 years, finished college)

- Designed print and digital products for use by departments on campus.
- Filmed, composed, edited, and published material to advertise university services.
